Healthcare Beyond Borders

Discover the **First Private Medical Workspace** in the **UAE.**

Welcome to C37.

The first-of-its-kind private medical workspace in the UAE, created to empower healthcare beyond borders through an innovative private medical workspace environment. C37, which takes its name from the human body's normal temperature, is a hassle-free solution for visiting doctors, or those based in the UAE, seeking to set-up a private part-time practice in Dubai.

Managed and operated by Dubai Healthcare City, C37 is a modern co-working space designed for overseas and UAE-based medical professionals. The new cutting-edge solution aligns with DHCC's drive to bring high-quality healthcare services to more than 200 nationalities residing in the UAE.

Equipped with the latest technologies and facilities, C37 offers the expertise from the industry's best medical professionals, empowering and establishing Dubai as a global medical/ healthcare destination for regional and foreign patients that values and delivers cost-effective and quality healthcare.

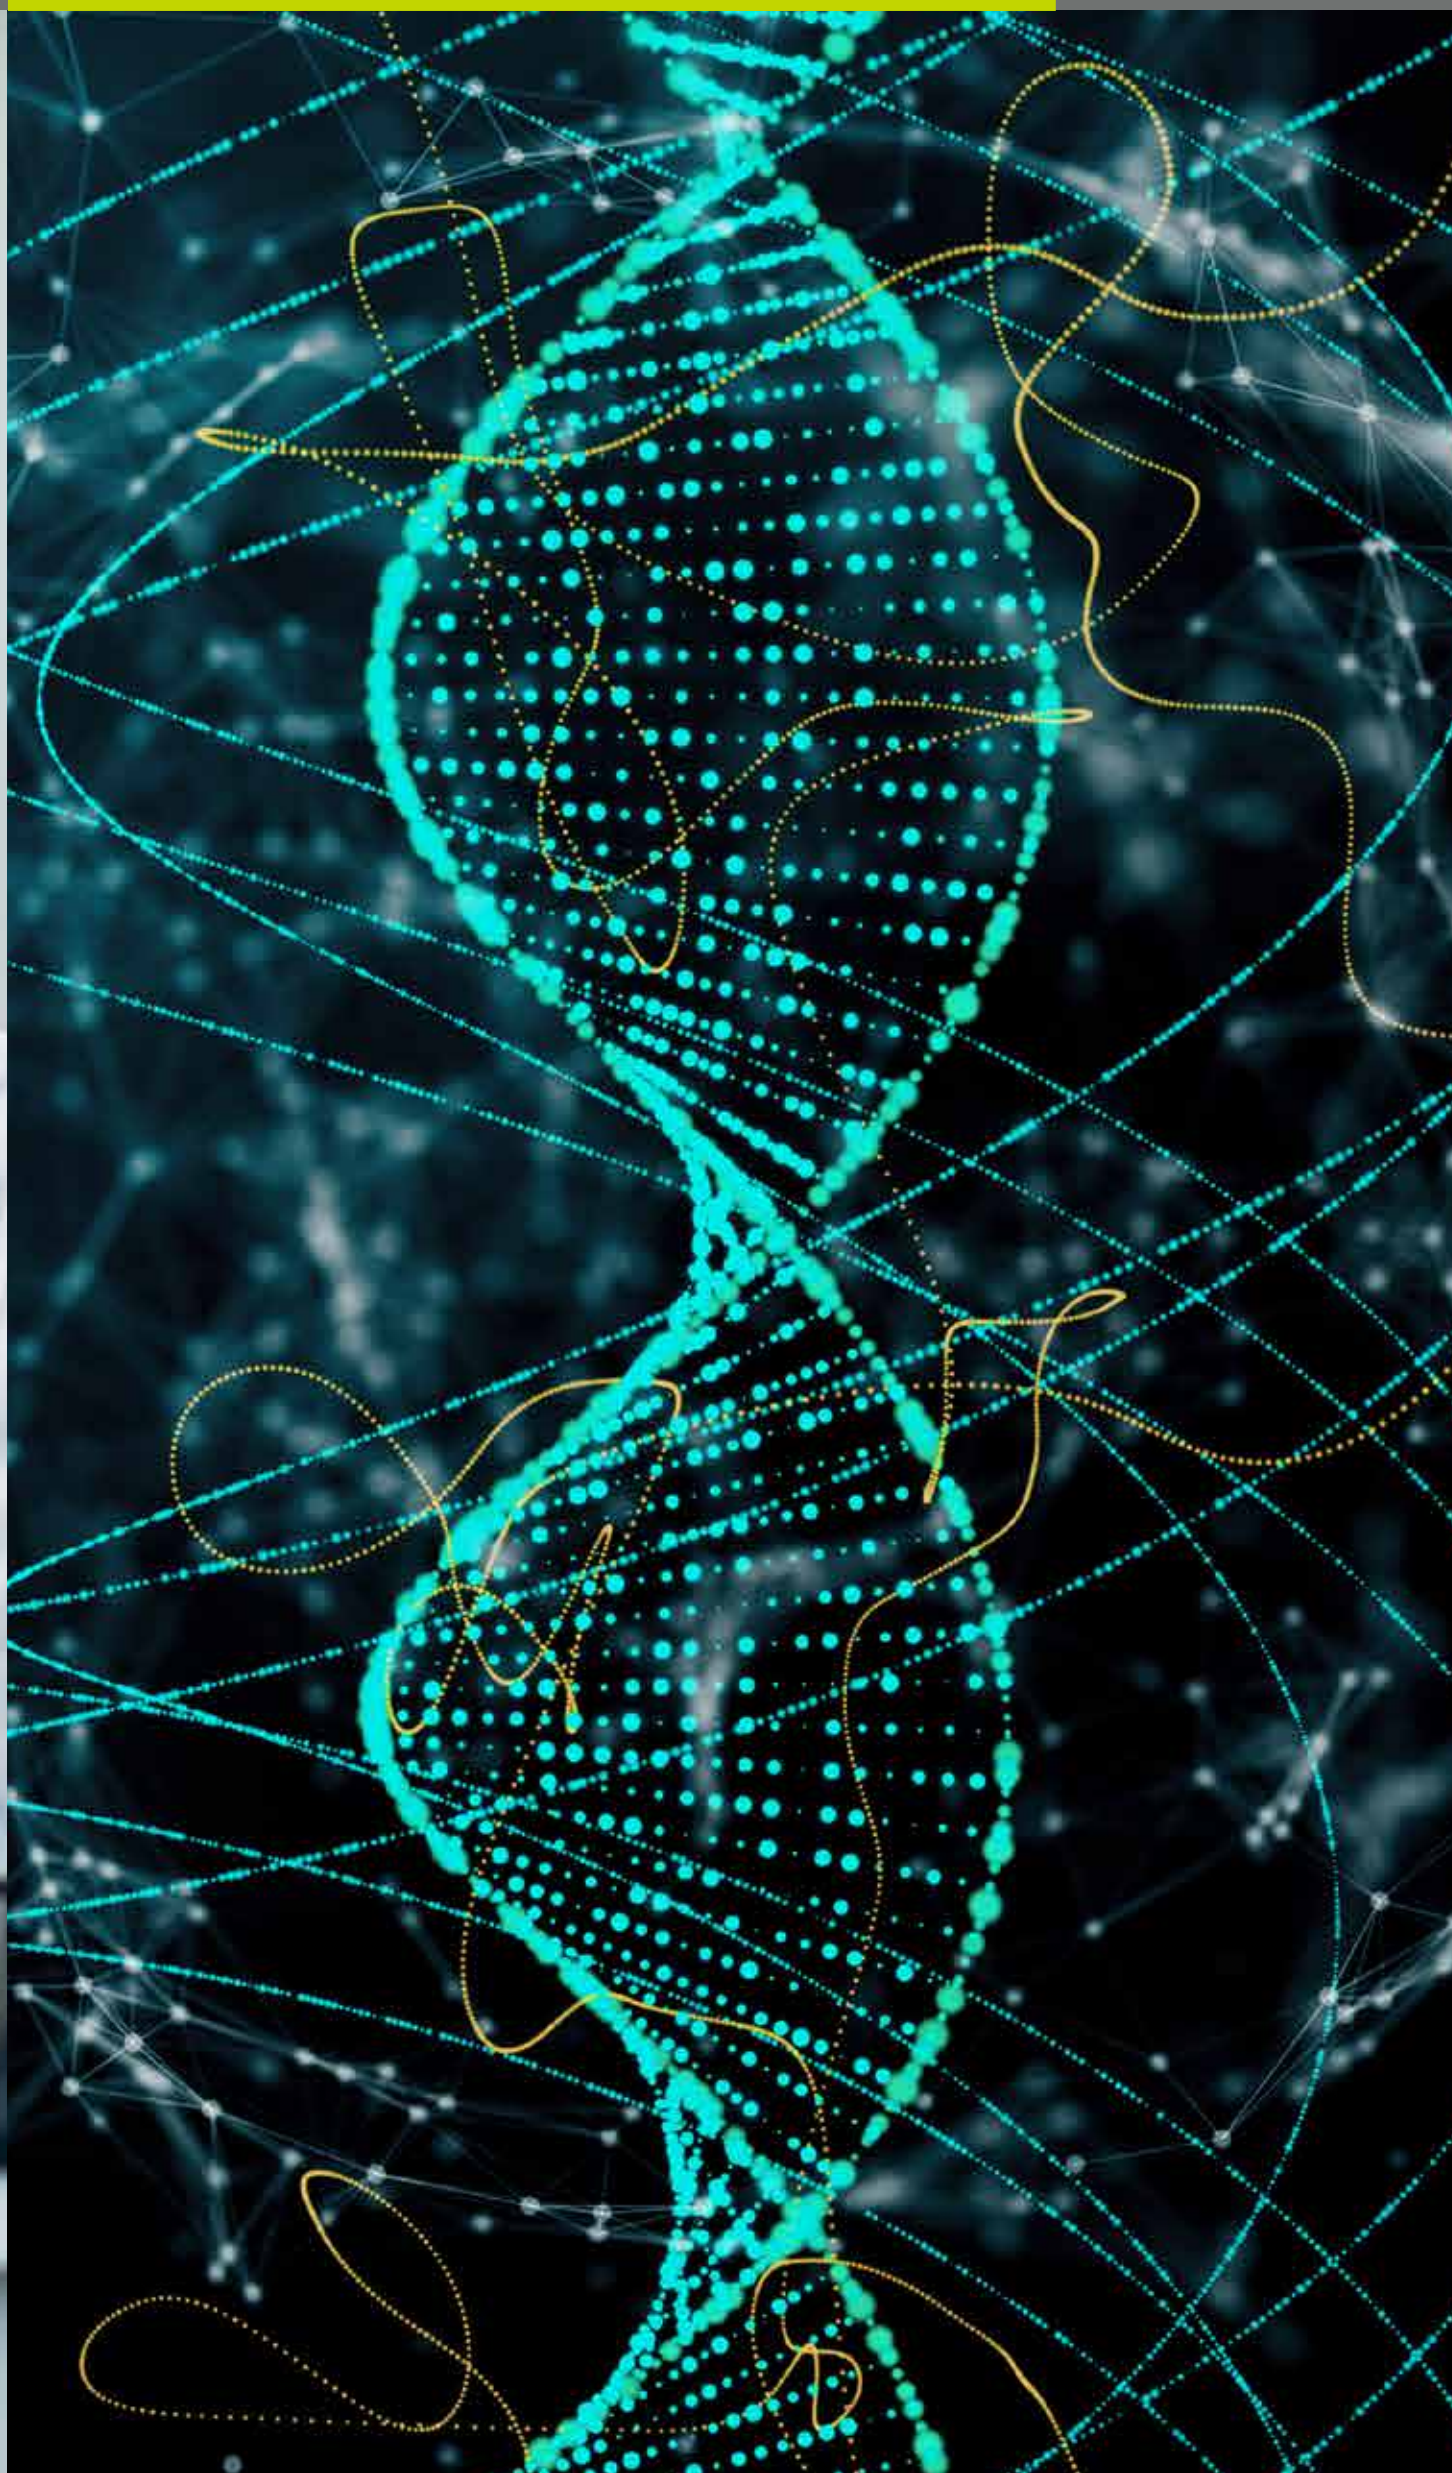

Values

Empowerment

Innovation

Inclusivity

Connectivity

Efficiency

Practicality Inside and Out

C37 is designed to offer a 360 - degree clinical operation set-up, allowing doctors to completely focus on nothing but delivering quality care and expanding their core practice. Doctors can benefit from full-service set-up, from visa processing and licensing to special discounts on travel and accommodation, and the opportunity to network and collaborate with more than 160 - plus clinics and hospitals within the DHCC ecosystem.

Whether it's a daily, weekly or monthly set-up, C37 gives physicians the flexibility and agility to align their independent part-time practice with not only their needs, but also their patients' needs as well.

Greater Mobility

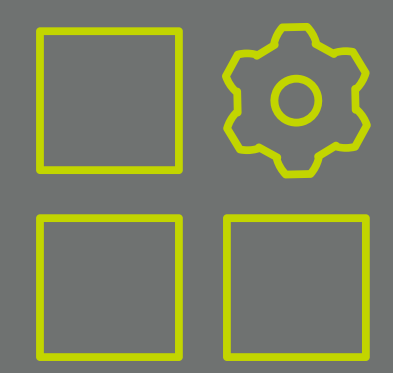

C37 provides doctors with a streamlined doctor-patient solution that prioritises high quality healthcare all the way. Located at the heart of Dubai Healthcare City's rich ecosystem, C37 acts as a gateway to a regional, diverse population made up of more than 200 nationalities that allow physicians to elevate their medical practice and broaden their experience.

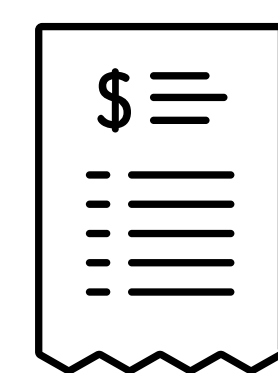

Perks and Privileges

C37 provides doctors with a multitude of benefits, taking care of all of their needs. From medical staff, to visa and licensing, C37 enables physicians to expand and grow their practice, as well as network with hospitals and clinics within Dubai Healthcare City, and ultimately focus on delivering quality healthcare at its best.
